

# ROYAL PERTH GOLF CLUB

Labouchere Road | South Perth | WA

## CLIENT

Royal Perth Golf Club

## ARCHITECT

Greg Davies Architects

## DISCIPLINES

Structural, Civil & Geotechnical

## PROJECT COST

\$3.4m

The prestigious Royal Perth Golf Club situated in South Perth is the oldest club in metropolitan Western Australia and was awarded its royal status in 1937. Structerre engineered a complete redevelopment of the existing clubhouse, including the addition of a new formal function centre, member's bar and lounge area, locker rooms, mezzanine activity area, memorabilia gallery, pro-shop and buggy storehouse. This has provided the client with a contemporary events space and has earned the complex a reputation as one of the finest clubs in Perth.

Structerre's scope of work included geotechnical investigation and reporting, structural and civil documentation, hydraulic works, and the provision of construction administration services. Whilst there were initially a number of complex design issues in retaining a portion of the existing facility, Structerre was able to create structural integrity and preserve the desired section of the old infrastructure, creating the end result of a seamless interface between the new and existing elements.
