

SWANCARE AUSTRALIND RISE

Christina Street | Australind | WA

CLIENT
BGC Construction

ARCHITECT
Peter Hunt Architects

PROJECT COST
\$30m

TEAM
Structural, Civil & Geotechnical

Australind Rise is a premium retirement estate in a prize location, between the idyllic Collie River and the Indian Ocean. The estate offers 38 modern two or three bedroom villas with spacious indoor living adjacent to the alfresco areas. The on-site Leisure Centre connects the community to a range of social and recreational pursuits, including a gym, areas for arts and craft, games and social clubs. The estate also includes a hair and beauty salon and a medical consulting suite.

Structerre provided the structural, civil and geotechnical work for this project, and were able to fulfil the client's brief to provide a living space that enhances the life of its residents. The estate has been architecturally designed to guarantee real intergenerational appeal; it is a place for both residents and their families to enjoy. The overall designs, the landscaping and the materials used, all reflect an awareness and respect for the environment.
